

GitLab

Metrics in a company-led open source project

Ray Paik

1 February, 2019

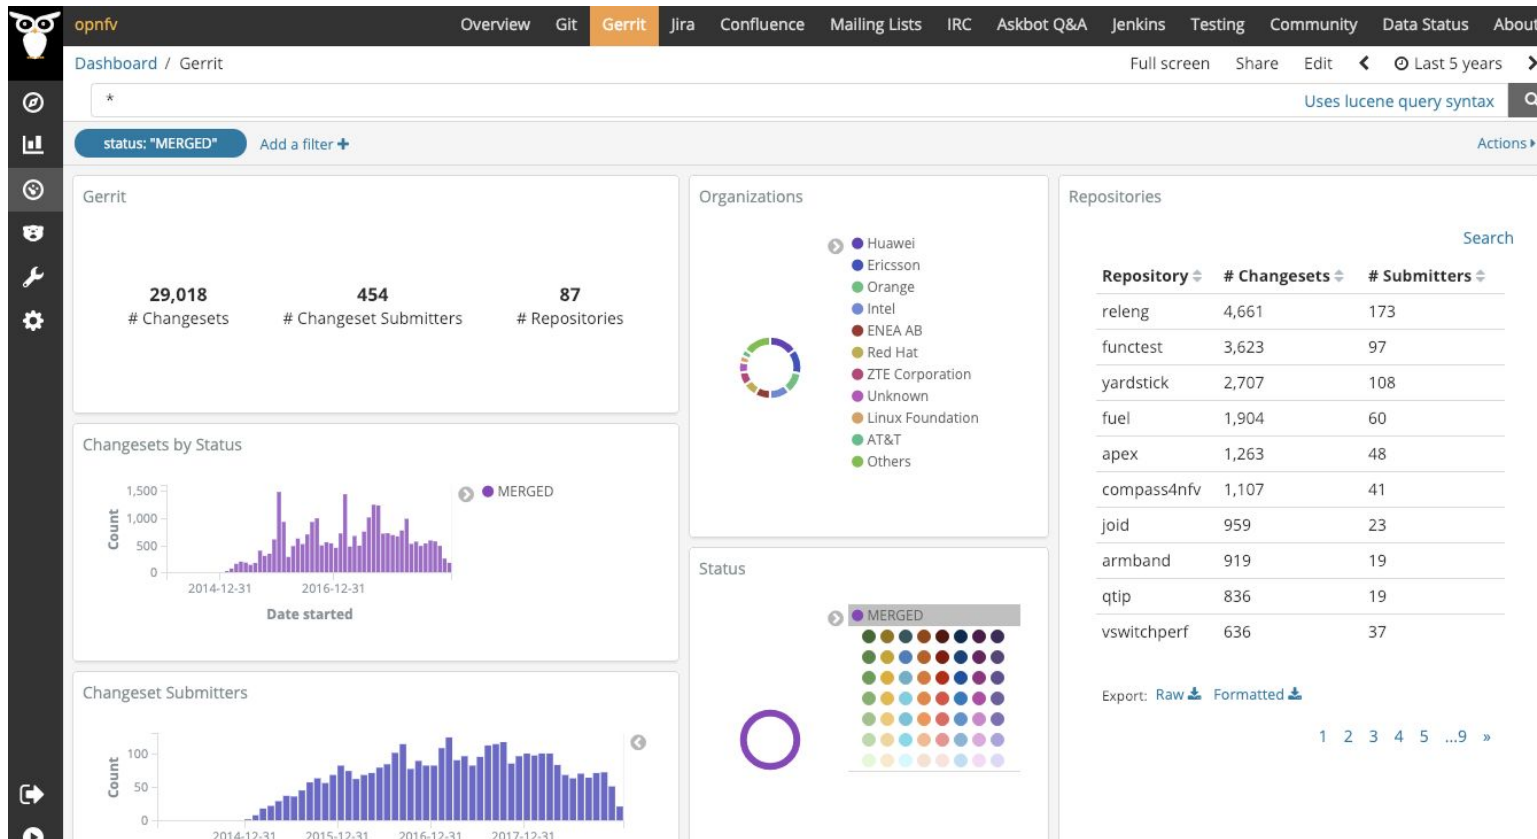

~ everyone can contribute ~

Agenda

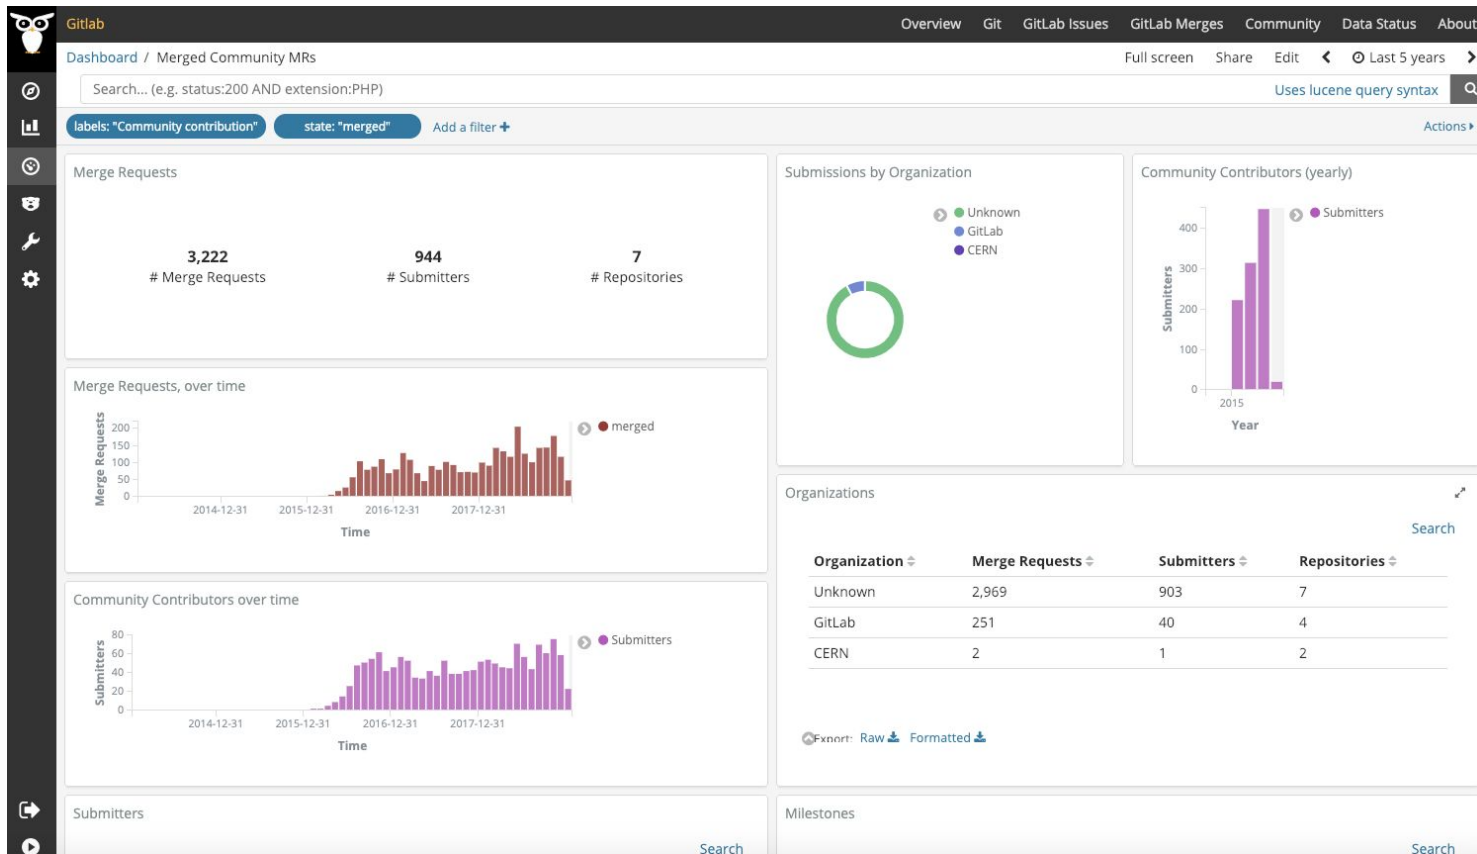

- My community until June 22, 2018
- My new community since June 25, 2018
- What's different in a company-led open source project?
- Metrics that I focus on today

My community view until June 22, 2019

<https://opnfv.biterrg.io/>

GitLab contributor community

<https://gitlab.biterg.io/>

So, what's different?

- Motivation for contributing

So what's different?

- Working with community members

What do I care about in the GitLab community?

- Awareness
- Feeling a sense of community & believe that “everyone can contribute”
- Converting casual to regular contributors

Metrics: First time contributors
